PROJECTS

Sights & Sounds - Event Planner

GitHub: <https://github.com/ttudorandrei/event-planner>

Deployed Project: <https://ttudorandrei.github.io/event-planner/index.html>

- An event planner app that communicates with the Foursquare API and Ticketmaster API to display venues, parks and events in a user chosen location.
- For this app we have used HTML5, CSS3, JavaScript, jQuery, Materialize CSS, Foursquare API and Ticketmaster API

P1xel

GitHub: <https://github.com/ttudorandrei/p1xel>

Deployed Project: <https://fast-shelf-77951.herokuapp.com/>

- A full stack application following the MVC architecture, that allows the user to search and save games and view Steam information for him and his friends.
- The app was built using HTML5, CSS3, jQuery, Bootstrap, Node.js, Express.js, Sequelize, BCrypt, MySQL, Handlebars, IGDB API and Steam API

Tech Blog

GitHub: <https://github.com/ttudorandrei/tech-blog>

Deployed Project: <https://whispering-citadel-74406.herokuapp.com>

- A full stack application following the MVC architecture. The application allows the user to view, add, edit and delete blog posts and comments for each of those blog posts.
- For this app I have used HTML5, CSS3, jQuery, MomentJS, Node.js, Express.js, Sequelize, BCrypt, Handlebars.js and MySQL

EDUCATION

Full-Stack Certificate: University of Birmingham, Birmingham, England

A 6 month, fast-paced programme focused on teaching programming skills in HTML5, CSS3, Javascript, JQuery, Bootstrap, Materialize, Node Js, MySQL, MongoDB, Express & ReactJS.
